Ellie May's Story

For many years I had been conscious of my gummy smile and bad teeth. I always used to make sure that in photos my lips were pursed together so that my teeth could not be seen. When laughing I found that my hand would all of a sudden be covering my mouth; this became a natural habit which I hated!

Now I feel a lot happier and at ease knowing that I can smile without having to cover it up. My confidence has grown so much that I have even opened my own business (Ethos Hairdressing, Swadlincote). Being able to smile and talk to clients with ease is so important to me.

Not only have friends and family commented on my beaming smile but also how the shape of my face has changed for the better, which is also an advantage to me!

I was apprehensive as I had no idea what could be done. However, at my initial consultation I soon became at ease, when various treatment options were explained to me. I had full confidence that Yogi could achieve the smile that I always wanted.

I had imagined that the treatment was going to be an uncomfortable experience but I was pleasantly surprised that it was pain free! The care I received from the whole team was brilliant.

I am over the moon with the result of my smile and would definitely say it's money well spent!

Ellie May's mum commented, "I have seen a difference in her as she is always smiling now. Ellie May has always been a happy person but because of her teeth, she has never smiled and so people thought she was unfriendly and unapproachable. She is now beaming with confidence!

At a recent family wedding, Ellie May was keen to get in all the photos. Previously she would have tried to hide away at the back!

If you have ever wanted to improve your smile, why not come and chat to our treatment coordinators and see what options are available. We have a photo portfolio of hundreds of happy patients to show the excellent results we have achieved.

Opening times

| | |
|------------|-------------------|
| Monday: | 8.00 am – 8.00 pm |
| Tuesday: | 8.00 am – 6.00 pm |
| Wednesday: | 8.00 am – 6.00 pm |
| Thursday: | 8.00 am – 6.00 pm |
| Friday: | 8.00 am – 6.00 pm |
| Saturday: | 9.00 am – 1.00 pm |

Dental Oscars – Smile Awards

The team attended the glitzy Aesthetic Dentistry Awards in London earlier this year to see Yogi pick up a "Highly Commended" accolade.

This was on top of being shortlisted in an unprecedented 8 categories, more than any dentist in the UK. This confirms his place as a leading Cosmetic Dentist in the country and demonstrates his excellence in a whole range of cosmetic treatments.

If you are unhappy with any aspect of your smile why not book a FREE consultation with one of our team who can discuss what is possible and showcase examples of our work.

Welcome to Yatisha Patel

Yatisha has joined the practice recently from Birmingham. She has particular interest in restorative dentistry, oral surgery and treating children.

Alongside dentistry, Yatisha is the creator of Dentify – one of the only NHS approved dental smart-phone applications to offer advice on dental pain and preventative advice for patients.

Yatisha also enjoys travelling and is very keen on football.

Good Luck

Good luck to Stacey Bettney and Sophie Shadwell who are both due to sit their final Dental Nurse exams soon.

Also to Yogi who is still training hard in Taekwondo and due to take his 3rd Dan Black Belt in October at the Academy in Bristol. This follows from his stint as an umpire at the World Championships which took part in July.

Penalty Shootout

Derby Vs Leicester
Pride Park March 16th

Contestants had to beat the Alexandra Dental Tooth Goalie in our half-time competition.

Winners won prizes that included an I-pad, electric toothbrushes and dental vouchers.

Congratulations

To Stacey Shakles on passing her Dental Radiography Exam. And to Annabel Mangan on passing her Dental Nurse Exam.

WELL DONE

Gold standard dental implant service

George Savva successfully passed the Faculty of General Dental Practitioners (FGDP) of the Royal College of Surgeons England Diploma in Dental Implantology after several years of postgraduate study.

George said, 'I am delighted to have passed the Diploma in Implantology. It is recognised as the gold standard in implant care and patients can feel confident that the treatment is carried out to these guidelines and protocols. The dental team have all been trained to the highest standards of hygiene and dental care. Patients now have more options locally if they have loose teeth, ill-fitting dentures or unsightly gaps.'

Like us on Facebook

and keep up-to-date with our regular posts and offers.

Preventative Care Plan Membership

Most of our patients are members of our Preventative Care Plan, this allows budgeting for dental care and discounted rates on treatments.

Straight teeth in just six months!

We now offer a revolutionary brace system that can gently straighten teeth in an average time of just six months. Six Month Smiles differs from traditional 'train tracks' as the brackets and wires are tooth coloured so less visible.

Along with offering Invisalign® and Inman aligner™, we can tailor your treatment to your needs. People should not need to feel self-conscious or uncomfortable about their smile because of crooked teeth.

Sedation service for nervous patients

Does the thought of treatment put you off going to the dentist? Then sedation treatment may be the answer. George now offers intra-venous sedation for implants or for routine dental care for nervous or phobic patients.

0%

Interest-free credit

For larger treatment plans we are able to offer you the option of spreading the cost, totally **interest-free!**
