

How my Smile has transformed my life

Sometimes people feel awkward or embarrassed about their smile and need a boost to their confidence. Mrs C W was one of those people, here she explains how her crowns transformed her smile and gave her a functional, beautiful smile.

"My treatment was an awful lot easier than I anticipated it to be; overall it was well and truly worth it! Even my temporary crowns impressed me. My friends and family thought that the temporary ones were my new teeth.

I was totally delighted with the treatment and my new smile. Yogi consulted me every step of the way during my treatment and the result was exactly what I wanted and had imagined. I was very impressed with the attention to detail from my dentist Yogi. I was always so conscious and embarrassed of my smile. Every time I smiled I tried to hide my teeth, but now that has all changed and I am thrilled. I smile so much more and I smile much more naturally, I enjoy the confidence now that I don't have to hide my smile.

My teeth are so natural looking, I didn't think that they would look this natural but they do. I feel that the job Yogi has done was not just about appearance, I feel that the function of my teeth was just as important. He has done such a great job in both these areas and I am very happy."

If you don't feel happy with your smile, please ask us how we can help you.

Monthly Prize Draw

We'd like to thank all our patients who have so far written us a review on Google. We have received some great comments and enjoy reading them. Every review that is written is entered into our monthly prize draw. So, keep writing your Google reviews for Alexandra Dental Care and you could

be the lucky winner of an electric toothbrush or £50 in dental vouchers.

FAR LEFT: Sarah Shelton, winner of £50 in dental vouchers

LEFT: Jennifer Jeffcoat, winner of an electric toothbrush

Dreaming of a straighter smile?

Dr Yogi Savania is starting a one year orthodontic course with a leading consultant in Wales to further his knowledge and treat more orthodontic cases.

We are able to offer a wide range of orthodontic systems including:

- Invisalign®
- Six Month Smiles®
- Inman Aligner™
- Quick Straight Teeth™
- Fastbraces®.

This means that we are better equipped to help you achieve the straighter smile you've always dreamed of. Ask a member of the team for further details.

Yogi receives Gold Provider plaque from Invisalign™

New computer system

We would like to apologise for any inconvenience caused whilst we are changing our computer system.

This is a fully integrated paperless system, this will mean in the future we will be totally paperless and improve the care we offer to patients as we will be able to access notes so much quicker.

Please keep us informed of any change of mobile phone numbers and email addresses.

Would you like a whiter, brighter smile?

If the answer is yes, then we are delighted to announce that we now offer Enlighten®, a revolutionary whitening system. Enlighten® whitening can whiten up to 16 shades, all teeth will whiten dramatically and give you that Hollywood smile.

If you wish to find out more information please speak to your dentist.

Are you looking for a convenient way to spread the cost of your routine dental care?

Then our Practice Plan may be right for you. To help prevent dental problems we encourage our patients to attend the practice regularly and with our plan, there will be nothing to pay on these regular visits as it's covered by your monthly payments. You will be entitled to two full dental examinations and two hygiene visits per year as well as x-rays and should you need further treatment, you are entitled to 20% discount, helping you to save money.

Worried that being a plan member means paying for more than you need? Not true. The plan works out almost the same as if you were paying as you go, except with the extra benefits of reduced prices of treatment, free emergency appointments, Worldwide Dental Trauma and Emergency Callout Insurance and Redundancy cover for your monthly payments for up to twelve months.

Here are some common questions from our patients.

I only need simple checkups and scale and polish twice a year, with the plan won't I be paying extra for items I won't need?

No, the basic price for two examinations, two hygiene visits and basic x-rays needed is £140. Paying 12 monthly installments of £11.85 amounts to £140.20. So you are paying the same but by spreading the cost over the year you have the extra gains of free x-rays, free emergency appointments (usually £25) and 20% discount on dental treatment.

Is it true you get cover when abroad?

Yes, if you are on holiday abroad and are enjoying the sunshine, toothache can be worrying and costly. Not to worry, our plan patients are able to have treatment in a local dental practice and claim most of the costs back. Terms and conditions apply.

There is also have an emergency phone number so they can help you locate an English speaking dentist wherever you are.

I had toothache after I had a tooth out and my appointment cost me £40.00. Do I always have to pay this?

Plan patients get unlimited emergency appointments free of charge no matter if you see your dentist or another. So the same appointment would be free for plan members.

If you'd like to spread the cost and save money, then sign up to our plan today like many others at Alexandra Dental Care who are already receiving the rewards.

Implant Open Day

We are proud to announce the success of our Dental Implant Open Day in June.

We welcomed new and existing patients to this open day. They all received a FREE implant consultation with our fully qualified treatment co-ordinators and a FREE implant assessment with Dr George Savva, this resulting in each patient receiving 10% off any treatment agreed.

To promote this day we ran a very successful radio campaign on the local radio station Touch FM.

Listen out for our catchy jingle on future promotions we may be running here at Alexandra Dental Care.

Welcome to Aneka

We would like to welcome our new Dentist Aneka to Alexandra Dental Care. Aneka has recently moved back to her home town of Derby.

Aneka has a passion for dentistry which is expressed in her care for her patients and her eye to detail. Aneka's particular interests in dentistry are working with children and delivering preventative oral health care, in line with the ethos of our practice.
